AUDIO SOLUTIONS

Hum Exterminator (Model MHUM-X)

Cleans up dirty power and filters unwanted ground noise that we all experience at most bars, clubs and old buildings. Maintains ground while filtering ground line of low voltages & currents that cause hum. Simply place on power plug of offending gear and no more hum.

Max Current: 6 Amp (720Watts)

HUM ELIMINATOR™ (Model MHE)

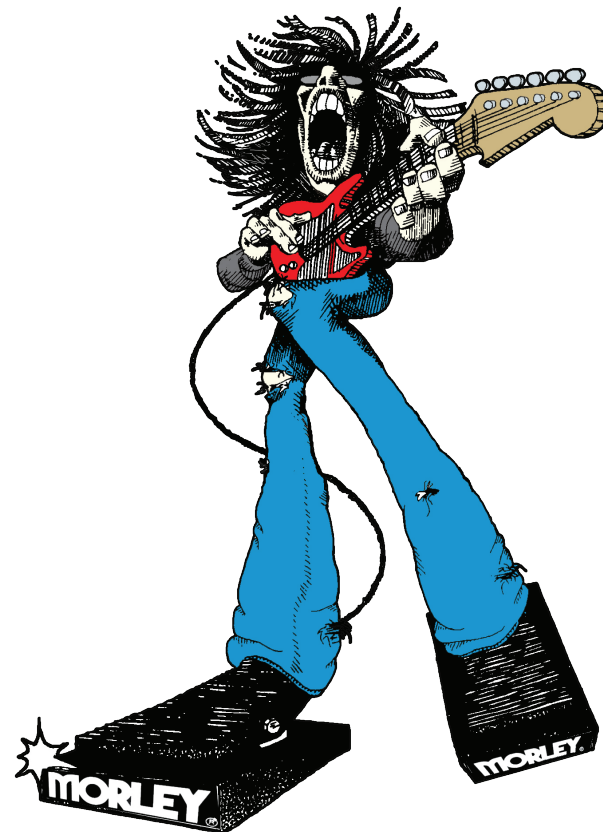

Eliminates ground loop hum. Also converts between balanced and unbalanced signals. Two Channels with XLR and 1/4" jacks that can be used in any combination

LINE LEVEL SHIFTER® (Model MLLS)

Increase or decrease signal voltage (-10dBV and +4dBu) without adding noise. Also eliminates ground loop hum & converts balanced and unbalanced signals. Two Channels with XLR and 1/4" jacks that can be used in any combination
